11.7m x 8.4m Mobile Stage
UNIT 4 or 5 & Free standing roof system

The introduction of C&M's free standing roof systems has delivered a new and versatile way to create concert scale staging at economy rates. We can create fast and inexpensive 40' stages. We have 2 of these units available with white or blue vinyl skins.

Stage size: 11.7m x 8.8m
Stage Height: 1.5m
Roof Size: 11.7m x 8.4m
Roof Height: 3.3m at side walls
Roof Height: 4.8m at peak
Roof Structure: 50mm square galvanised steel RHS (will except standard lighting clamps & fixtures)
Rigging: 2 x up stage – down stage truss located at each side.
4 x cross stage trusses.
Lifting system: 4 x Telescopic 2 stage towers. SWL 500kg per tower.
Hand operated 1ton winch on each.
Roof Skin: Blue or white heavy duty vinyl.
Weight loading: 320kg per truss. Total SWL 1000kg
Walls: Optional rear & sides. White or black shade cloth or blue or black vinyl.
Floor Structure: Structural Ply flooring
Floor Finish: Grey non-slip paving paint
Transport Mode: Single semi-trailer or B-Double configuration
